

GEO RESOURCES

GEO EMAIL ALLOWLISTING INSTRUCTIONS

Some GEO emails may be filtered or quarantined by corporate email security systems after successful delivery.

To ensure GEO communications reach your team, please ask your IT/email security team to review your settings and allowlist the GEO and Campaign Monitor details below.

GEO SENDING DETAILS

Authenticated sending domain:

globalequity.org

Primary From address:

news@globalequity.org

CAMPAIGN MONITOR SENDING INFRASTRUCTURE

Return-Path domains:

cmail1.com through cmail20.com

createsend7.com

Campaign Monitor sending IP ranges:

27.126.146.0/24

103.28.42.0/24

146.88.28.0/24

203.55.21.0/24

204.75.142.0/24

Campaign Monitor SPF include, where required:

include:_spf.createsend.com

RECOMMENDED ACTION

1. Check quarantine logs for messages from news@globalequity.org and the authenticated globalequity.org domain.
2. Confirm whether messages are being accepted by your mail server and subsequently quarantined or filtered.
3. Allowlist the GEO sending domain and From address.
4. Where required by your security platform, allowlist Campaign Monitor's Return-Path domains and sending IP ranges listed above.
5. Release any GEO messages currently held in quarantine.
6. Confirm that future GEO communications can be delivered to the intended recipients' inboxes.

**THANK YOU FOR HELPING US KEEP YOUR TEAM CONNECTED TO GEO AND
THE LATEST IN GLOBAL EQUITY COMPENSATION**
